1.4.3 Programmes for Services Access

Mental Health, Health, and Emergency Programs Bring Basic Services to the University and the Community

DOrSU delivers programs that improve access to basic services directly through its clinic, counseling office, Office of Student Affairs, and community engagement activities. After the October 2025 doublet earthquake in Davao Oriental, the university began a psychosocial support program on November 28, 2025 for healthcare workers affected by the quake, with funding from the ABS-CBN Foundation in partnership with the Diocese of Mati Commission on Health. The rollout builds on an existing agreement between DOrSU and the Diocese of Mati under the Kalig-On Community-Based Mental Health and Psychosocial Support Program, and used trained facilitators to deliver evidence-based interventions across affected communities.
