11.2.1 Public Access to Buildings

Davao Oriental State University Provides Public Access to Buildings and Cultural Landscapes

Davao Oriental State University (DOrSU) supports Sustainable Development Goal (SDG) 11: Sustainable Cities and Communities by providing public access to designated university buildings, facilities, and natural landscapes of cultural, historical, and educational significance. Members of the public, local communities, organizations, and government agencies are welcome to utilize these spaces for educational, cultural, religious, and community activities, either free of charge or through established venue rental arrangements. Through these initiatives, DOrSU promotes cultural appreciation, public engagement, heritage preservation, and inclusive community development.
